

THE END OF OOOOPS. SECURE YOUR VALUABLE TEST ASSETS.

DELETED IS NOT LOST

Assure TrashBin for HP Quality Center

HP Software Gold Business Partner 

- Protects your valuable Test Assets
- Restore deleted items with ease
- Prevent expensive data loss
- Avoid time-consuming restoration from backups

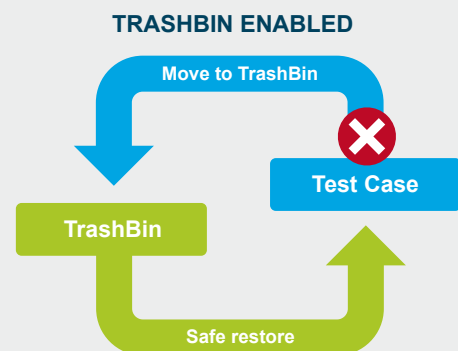

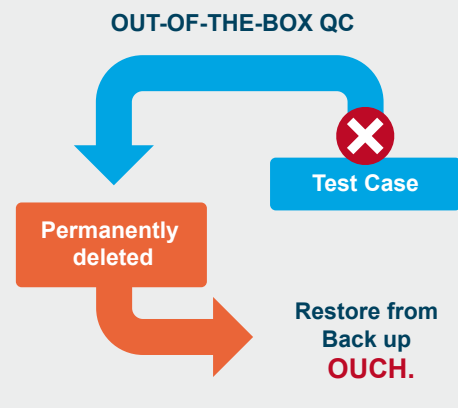

THE CHALLENGE

Even in the most controlled QC environments, accidents can happen. Someone deletes a Test Case folder, an important Business Requirement or the results of last month's Test Runs.

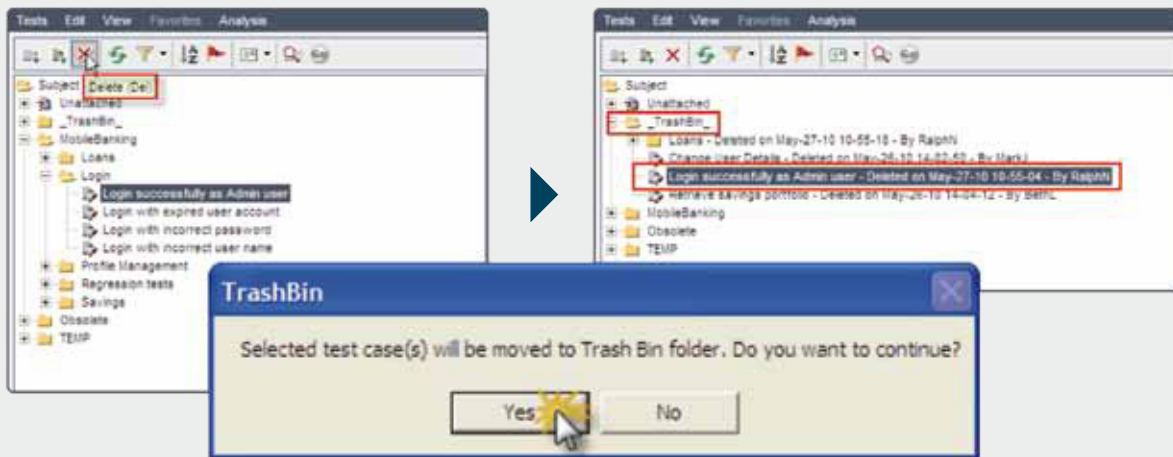

In HP Quality Center, deleted items are normally lost forever. The only way to get an item back to Quality Center is to restore the project from the latest database backup. This takes time, causes loss of data and may even cause delays in your release schedule.

THE SOLUTION

Assure TrashBin protects your Test Assets. Instead of being permanently deleted from the QC database, items are moved to a special 'TrashBin' folder. Items that are moved to the TrashBin are easily recognizable and can be traced back – a time stamp and a user name will be added to the item's name. Permission to empty the TrashBin can be restricted to specific User Groups. Deleted items under the 'TrashBin' folder can be restored to their original location with a simple click.

ASSURE TRASHBIN FOR HP QUALITY CENTER IS EASY TO INSTALL AND INTEGRATES SEAMLESSLY WITH YOUR TESTING PROCESS.

Key Features:

Protects your Test Assets

TrashBin catches your deletions and places deleted items into a special folder.

Controlled Emptying of the Trash-Bin

Permission to empty the TrashBin can be restricted to specific User Groups.

Traceability

TrashBin keeps track of who did the deletion and when.

One-click Restore

Items in the TrashBin can be easily restored to their original locations with the click of a button.

ABOUT ASSURE

Assure provides innovative products and solutions for HP Quality Center customers. Using our solutions companies can achieve a standardized and enhanced use of HP Quality Center while lowering the TCO. Our growing partner network enables us to offer our solutions globally.
